The background of the image shows a city skyline viewed from an elevated position. In the foreground, the dark silhouettes of several people are visible as they look out over the city. The most prominent building in the skyline is a large, light-colored structure with a prominent dome, resembling a state capitol building. Other smaller buildings and structures are visible in the distance under a slightly overcast sky.

A healthy community, a community with a good healthcare system, is a solid community with a better productivity.
